Profile

Detail-oriented **Technical Business Analyst** with hands-on experience in **data validation, workflow optimization, and process automation** at **Amazon**. Passionate about simplifying complex workflows and improving operational efficiency through data-driven insights and automation. Experienced in **Excel, SQL, Power BI**, and **Agile methodologies**, with additional technical exposure to **Python, Java, and Selenium**. Known for building practical solutions that reduce manual effort, enhance productivity, and support informed decision-making across teams.

Professional Experience

07/2024 – Present
Chennai, India

Digital Content Associate
Amazon

- Designed and developed an **end-to-end Productivity Entry Tool** using **Python (Tkinter)** with separate Employee and Super Admin screens — enabling real-time tracking of work metrics and improving transparency.
- Automated repetitive content validation and reporting tasks using **VBA Macros, Selenium (Java & Python)**, and **Playwright (Python)** — **saving over \$1000+ in manual effort and resource hours**.
- Conducted **data validation and quality analysis** to ensure accuracy across large datasets, supporting key business decisions.
- Analyzed workflow metrics to identify bottlenecks and implemented process improvements to optimize turnaround time.
- Collaborated with cross-functional stakeholders to align operational efficiency initiatives with product and business goals.

01/2024 – 06/2024
Chennai, India

Technical Trainee
Paladin

- **Drove Agile sprint activities**, contributing to **backlog grooming, sprint planning**, and **task prioritization** to maintain project momentum.
- **Collected, analyzed, and documented business requirements** and **user stories** from stakeholders for **backend development projects**.
- **Collaborated closely with development teams** to ensure a clear understanding of **functional requirements** and **acceptance criteria**.
- **Evaluated system processes**, identified **gaps and inefficiencies**, and recommended **process and feature improvements** to enhance **project outcomes**.
- **Prepared structured reports and documentation** to support **project tracking, performance analysis**, and **data-driven decision-making**.

Education

06/2020 – 05/2024
Chennai, India

BTech - Bio Medical Engineering
Dr MGR Educational and Research Institute
CGPA: 8.87

2019 – 2020
Chennai, India

HSC
St. John's Matriculation Higher Secondary School
62.5%

Skills

Excel

Macro, VLOOKUP, Pivot Tables, Data Analysis

Agile / Scrum Methodology

Data Validation & Quality Assurance

Technical:

SQL, Python, Java, Selenium, Playwright, Py-Tkinter, Jira

User Stories & Use Case Creation

Data Interpretation & Insights Generation

Documentation & Standard Operating Procedures
